

KARLOVAC *info*

Karlovac, grad na četiri rijeke, grad parkova, grad susreta. Karlovac, grad odraza zvjezdane prašnine i mirisa zaustavljene vječnosti. Nebrojene asocijacije na Karlovac uvijek su nova inspiracija za posjet i razgled grada. Kupanje na Korani, veslanje na Kupi, šetnja uz šančeve oko stare Zvijezde, odmor na starom gradu Dubovcu, uživanje ispod šarenih vitraja crkve Presvetog Trojstva ili jednostavno ispijanje kave ispod rascvjetanih kestena stare Promenade, sve to čini šest dimenzija avanture posjeta Karlovcu, poput šest krakova povijesne jezgre. Posjet Karlovcu igra je slaganja mozaika, a slika grada složena je tek kad je svaki kamen na broju.

Najstariji dokazi o ljudskom prisustvu na području današnjeg Karlovca sežu do 3500. godine prije Krista. Gradnja tvrdave Karlovac započela je 13. srpnja 1579. godine i svake godine slavi se rođendan na taj dan. Izgrađena je u obliku šesterokrake zvijezde i primjer je idealnoga renesansnog grada. Puna tri stoljeća bio je vojni grad, a nakon toga dobio je status Slobodnoga kraljevskog grada. Početkom 19. st. bio je najbogatiji grad Hrvatske zahvaljujući obrtništvu i trgovini.

Kamo god krenuli na putovanje po Hrvatskoj, Karlovac je točka kroz koju se mora proći. Jesenske magle katkad ga sakriju od pogleda, ali budite znatiželjni i otkrijte što krije. Zvijezda, stari grad Dubovac, Radićeva ulica koja spaja Kupu i Koranu, kazalište Zorin dom, Gradski muzej, slatkovodni akvarij Aquatika, spomenici kao tihи svjedoci povijesti i kulture, mali intimni restorani i klubovi, kupališta, mostovi, Riječno kino, rođendanski bal na Dan grada, Ivanjski krikes... ili ako vam treba odmor od svega, uputite se kao Mali princ, sasvim polako, do izvora vode na koranskoj obali i uživajte u čarobnom izlasku Sunca dok se budi grad.

Karlovac ima sasvim osoban odnos sa svakim od nas, bilo da smo rođeni u njemu, bilo da smo tek prolaznici. Jer i najsitniji trag stope na tlu grada bit će neizbrisiv i za Karlovac i za sve koji su se ikada zatekli u njemu. Neka to bude trag s osmijehom!

Karlovac, the town on four rivers, the town of parks, the town of encounters. Karlovac, the town of the stardust reflection and the smell of eternity that came to a stop. So many things in connection with Karlovac are always a fresh inspiration to visit and take a stroll through this town. Swimming in the Korana river, rowing on the Kupa, walking along the old moats surrounding the star-shaped Old Town, a rest near the old Dubovac castle, relaxing under the beautiful colors of the glass windows of the Holy Trinity Church or simply having a cup of coffee under the flowering chestnut trees along the old Promenade... all these things make the six dimensions of the adventure of visiting Karlovac, just as its historic centre was built in the form of a six-pointed star. Visiting Karlovac is just like making a mosaic: the picture of the town will be complete only after you have put the last little stone in its place.

The first traces of humans on the territory of today's Karlovac date all the way back to 3500 BC. The construction of the Karlovac fortress started on July 13, 1579, and every year on this very day the town celebrates its birthday. It has been built in the shape of a six-pointed star and is an outstanding example of a perfect Renaissance town. It was a military town for three years, after which it obtained the status of a free royal city. Thanks to various craftsmen and lucrative trade, at the beginning of the 19th century Karlovac was the richest town in Croatia.

To whichever part of Croatia you want to go, you always have to go through Karlovac. The town is sometimes hidden by the autumn fog, but be curious and discover what the fog is hiding. The Star (the Old Town), the old Dubovac castle, the Radićeva street, connecting the Kupa and Korana rivers, the town theatre (Zorin dom), the Town Museum, the freshwater aquarium (Aquatika), different monuments as silent witnesses of history and culture, the small, intimate restaurants and clubs, the beaches, bridges, the river cinema, the birthday ball on the day the town was founded, the fireworks... or, if you need a break from all that, just go, as the Little Prince did, at your leisure, toward the spring of water on the Korana bank and enjoy the magical rising sun while the town is waking up.

Karlovac has a very personal relation with every one of us, whether we were born here or are just passers-by. Because even the tiniest footprint on its soil will be there forever, indelible both for Karlovac and for all that ever visited the Town. Let this be a smiling imprint!

Zvijezda - povjesna gradska jezgra *The Star - Historic Old Town*

*Povjesna gradska jezgra građena u obliku šesterokrake zvijezde.
The historic old town is known as Zvijezda (the Star) because of
its six-pointed star shape.*
